

KARNA TEJESH KUMAR

React.js | Next.js | TypeScript | JavaScript | React Native | Node.js
8309992561 | tejeshkarna96@gmail.com | [LinkedIn](#) | [Portfolio](#) | [GitHub](#) | Hyderabad / Bangalore | Open to Remote & Relocation

PROFESSIONAL SUMMARY

Frontend Engineer with 3 years 2 months of experience building scalable, SEO-optimized web apps using React.js, Next.js, TypeScript, and JavaScript, with expertise in SSR/SSG/ISR and REST APIs — improving load speed by up to 40% and engagement by up to 25%. Experienced in full-stack and mobile development with Node.js, Firebase, Supabase, and React Native, plus AI/LLM integration (OpenAI, Gemini, Claude). Immediate joiner, open to remote, onsite, and relocation.

SKILLS

Frontend: React.js, Next.js, React Native, TypeScript, JavaScript (ES6+), HTML5, CSS3

Styling: Tailwind CSS, Sass/SCSS, Responsive Design, Accessibility (WCAG)

State Management: Redux Toolkit, React Query, Context API

Backend: Node.js, Firebase (Auth, Firestore), Supabase, REST API Development

Performance & SEO: SSR, SSG, ISR, Code Splitting, Lazy Loading, Lighthouse, Core Web Vitals

Testing: Jest, React Testing Library

Version Control & Deployment: Git, GitHub, Vercel, CI/CD Basics

Tools & Workflow: Postman, GitHub Copilot, Agile/Scrum

AI Integration: OpenAI API (GPT), Gemini API, Claude API

Soft Skills: Problem Solving, Cross-functional Collaboration, Ownership & Accountability, Adaptability

EXPERIENCE

ManaTechServices (Founder) | Full Stack & Mobile Developer | Dec 2025 – Present

- Founded a freelance venture; built a full-stack e-commerce platform for T Sun & Tan (skincare) — catalog, cart, checkout, auth, orders, admin — using Next.js, Node.js, and Supabase; dev complete, pending client brand/domain registration.
- Automated WhatsApp order notifications for the platform, cutting manual order follow-up time by ~30% and improving operational efficiency.
- Built ManaTaskPlanner, a React Native app with a Supabase + Node.js backend, push notifications, and real-time sync across 3 modules; Android complete, iOS pending client sign-off.
- Owned end-to-end delivery of both projects independently — from requirements gathering through development and client coordination.

Zan – Zari Group Limited (Contract, Remote – Israel) | Frontend Developer | Sep 2025 – Nov 2025

- Delivered AI-driven frontend features over a 3-month remote contract, reducing manual content processing time by 20–30% and improving workflow efficiency.
- Developed frontend modules using Next.js and TypeScript, focusing on scalability and maintainability.
- Built reusable component architecture to accelerate feature delivery.
- Streamlined SEO and web performance using SSR, SSG, dynamic routing, and code splitting.
- Collaborated with backend and cross-functional teams to deliver production-ready UI solutions.

Craftnotion Private Limited | Frontend Developer | Mar 2023 – Jul 2025

- Delivered scalable, SEO-optimized web applications using React.js, Next.js, and TypeScript in production environments.
- Boosted page load speed by 25% through lazy loading, image optimization, and efficient API handling, reducing bug reopens by 40%.
- Designed reusable and modular UI component systems to enhance development efficiency and maintain consistency.
- Collaborated with cross-functional teams in Agile environments to deliver scalable, user-centric solutions.

PROJECTS

PalAsk – AI Platform | Sep 2025 – Nov 2025

Technologies: Next.js, TypeScript, Tailwind CSS

- Engineered AI-driven frontend workflows to automate content creation and improve user experience.
- Integrated modern AI APIs to automate content pipelines and enhance user experience.
- Streamlined SSR and SEO, reducing load times by 40% and increasing user engagement by 25%.
- Built 20+ reusable UI components, reducing future development time and improving scalability.

Together Buying – Group Purchasing E-commerce Platform | Mar 2023 – Jul 2025

Technologies: Next.js, JavaScript, Sass (SCSS)

- Designed a scalable e-commerce frontend using SSR and dynamic routing to improve SEO and speed.
- Implemented real-time order tracking, countdown deals, and admin dashboards.
- Enhanced frontend performance through lazy loading, efficient API handling, and code splitting.
- Supported 500+ orders by building high-performance and scalable frontend workflows.

EDUCATION

Bachelor's Degree | Vikram Simhapuri University | CGPA: 8.0 | 2019 - 2022
